VISION 2016

In the name of Allah, the Most Compassionate, the Most Merciful

“Those who spend (in the cause of Allah) privately or publicly, by night and day, have their reward with their Lord. And (on the day of Resurrection) they shall neither fear nor grieve.”

(Quran, Al-Baqarah 2:274)

HUMAN RESOURCES

Number of Full Time Employees: 130

Number of Volunteers: 8,000 in 25 states

Message from the General Secretary

Dear Friends,

Greetings!

2014 served as a year of achievement, reflection, change, and challenges, but I am indebted to the Almighty that Human Welfare Foundation has worked through the challenges to cater to the needs of those most in need across India.

Muslims in Assam had to live through a continuous cycle of targeted violence throughout the year in 2014. More than 100 died and around 10,000 had to flee from their homes to save their lives. I would like to thank our valued donors and volunteers who have so far allowed us to make a huge difference to the lives of thousands of families, and I would also like to appeal for their continued support as we have a long way to go in order to end the sufferings of the victims.

The exceptionally disastrous floods across the Kashmir region this September was a disaster unprecedented in its scale and level of destruction. Human Welfare Foundation responded to the needs of those suffering on the ground, and as we

did in Assam last year. We have partnered with local organizations in the region in order to most effectively deliver emergency aid and longterm rehabilitation programmes in the future.

In 2014, we lost our beloved chairman Janab Saiyid Hamid sb, under whose able guidance we have been able to walk this far on our journey to change the social landscape of the country. His death is a great loss for the Muslim community in the field of education and social welfare.

I would also like to welcome Mr. Muhammad Abdunnafeeh as the new CEO of Human Welfare Foundation. He brings with him a range of experience which will enable HWF to continue to serve humanity effectively.

Finally, I take this opportunity to specially thank Human Welfare Foundation's dedicated staff, partners, sponsors, and my fellow trustees for their collective tireless efforts to deliver the remarkable progress Human Welfare Foundation achieves each year. I am especially grateful to our supporters, donors and volunteers for their selfless generosity and dedication to our work. With your continued support, we hope to achieve more in the coming year, to expand our efforts and reach more vulnerable and suffering people in need. May Allah Subhanahu wa Ta'ala reward you all and accept our efforts.

A handwritten signature in blue ink, reading 'K. A. Siddique Hassan'.

Prof. K. A. Siddique Hassan
General Secretary

Believe in Allah and in His Messenger and expend of what He has entrusted to you. A great reward awaits those of you who believe and spend their wealth.

Al-Quran 57:7

VISION

Hands-in-hand we go to serve the deserving. Through various community service projects and with the support of our caring and generous donors, the Human Welfare Foundation (HWF) is engaged in helping people with little or no resources. With the high spirit and dedication of its volunteers, HWF strives to alleviate human sufferings and also to help them achieve real improvement in the quality of their lives.

MISSION

Our mission is to serve the poor and deprived sections of the society by providing them the basic amenities like education, healthcare, food and shelter that equip individuals to become an equal partner in the progress of the nation and by helping the sufferers of natural calamities to move towards a world free from hunger, ignorance, deprivation and exploitation.

We aim at reaching the grassroots with distinct preference for the depressed and the disadvantaged sections enabling them to attain all that a common citizen cherishes.

VALUES

COMPASSION:

A person cannot be compassionate unless he/she is sensitive to others' needs and condition.

EMPOWERMENT:

To empower people in order to unleash their potential.

JUSTICE:

Each person has the right to live and be treated with dignity. Justice is achieved by considering the rights of others and the respect they deserve, regardless of ethnic background.

ACCOUNTABILITY:

We hold ourselves accountable for our actions. We hold our project implementation partners accountable for their actions.

supporting **EDUCATION**

Development is a central imperative in today's globalized world. But achieving sustainable all-round development for society requires certain fundamental pillars in place. Education is one such pillar without which any future growth is inconceivable. To imagine growth with large parts of the country bounded in illiteracy is just impossible. More so, in today's information based society, where education is the key to a whole world of opportunities. Not only that, a whole host of issues in fields of healthcare, economic opportunity, women empowerment and community building can be traced to a lack of proper education.

It is a matter of great concern that every third illiterate person in the world is an Indian. "Inadequate budget allocation, dismal school infrastructure in rural areas, high dropout rates, are the hallmarks of our education system". Even the minimal infrastructure, such as proper rooms, desks, drinking water facility, toilets, is missing in a large number of schools.

Human Welfare Foundation (HWF) sees education as a lifeline to a brighter future out of poverty. Education is a means to uplift as well as empower people to continue the reconstruction of society. Hence, Education and Skill Development top the list of priorities outlined in Vision 2016 Program.

Vision 2016 implements wide ranging Educational Projects, being executed round half (north) the country. The sector proposes a multi facet plan for the development of education system among the marginalised sections of the Indian society.

Education provides the key to a better future, helping people to increase their skills, fulfil their potential and pursue their goals. But millions of children across India are denied even a basic education. We aim to provide impoverished communities with access to education or training, which offers them a way out of poverty. By working directly with local communities, we ensure that our educational projects are relevant to their needs.

providing access to **HEALTHCARE**

Universal access to education and healthcare are fundamental necessities for any society to progress. No nation has achieved a developed status without fulfilling these two basis requirements.

Many people around the world continue to suffer from a lack of basic healthcare. India is no exception. Basic services that most people take for granted can be the difference between life and death. Each year, according to the World Health Organization (WHO), almost 11 million children under 5 years of age die from the causes that are largely preventable. Among them are 4 million babies who do not survive the first month of life. In addition, more than half a million women die in pregnancy, childbirth or soon after. In order to change these numbers every mother and every child must have access to healthcare.

Responding to this need, Human Welfare Foundation (HWF) implements a wide array of health and nutrition projects, providing basic and supplementary medical services to populations in dire need.

HWF has committed much of its efforts to ensure adequate medical treatment to those who are deprived of this basic necessity. HWF actively organizes medical camps, blood donation camps and donates medicines. We are running one Multi-speciality Hospital and Six Medical Centers in different parts of the country. Our other projects include training traditional birth attendants, distributing medical equipments, and providing low cost mobile and clinic-based healthcare facilities for the rural poor.

Under Vision 2016 project, the HWF envisages state of art health facilities on subsidized/ marginal costs to cater the needs of poor patients.

Easily preventable and treatable diseases are still causing death and long term suffering to millions across India. Children go without vaccinations and many are unable to receive even the most basic health care, due to either lack of availability or funds. Our projects provide the infrastructure of hospitals and medical centres and raise awareness of health and nutritional issues for the wider community.

promoting sustainable **LIVELIHOOD**

India's GDP ranks among the top 10 economies of the world. However, around 269 million people or about 71 million households are living below the poverty line.

HWF's Vision 2016 plan addresses the roots causes of poverty through long-term solutions and believes in promoting sustainable livelihoods. A sustainable livelihood is a way of earning a living that empowers people to become self-sufficient and less reliant on humanitarian aid.

Human Welfare Foundation has established a specialized organisation **SAHULAT MICRO-FINANCE SOCIETY** to focus on the economic development of under privileged and weaker people especially the Muslim Community.

Sahulat facilitates and supports livelihood opportunities and micro enterprise development for poverty alleviation through provision of Interest Free Microfinance.

INTEREST-FREE MICROFINANCE

Interest free Microfinance is an effective tool to fight against poverty. Sahulat's Interest Free

Microfinance Program through its affiliated credit cooperative societies focuses on efforts that empower communities to lift themselves out of poverty.

Focusing on sustainable development, Sahulat ensures self-reliance and decreases community dependence on outside aid. Sahulat believes that without sustainable development there is no progress.

Sahulat works closely with socially and economically underserved communities that are grappling with poverty to identify their needs and provide relevant livelihoods training, opportunities for enterprise, equal access to knowledge, financial support, employability skills and social and infra-structural capital to make informed livelihood choices.

Projects include interest-free loan schemes and developing small businesses, such as vegetable and dairy production. Our target beneficiaries are the most vulnerable members of a community, like women and the elderly.

Many people are stuck in a poverty trap because they do not have the resources to develop their skills and work their way out of destitution. Income-generation opportunities empower impoverished people to learn new skills, achieve self-sufficiency and improve their livelihoods. In collaboration with local partners, we provide individuals and communities with training and small-scale, interest-free business loans, which offer them dignified and sustainable ways of making a living.

Sahulat Microfinance Society publishes “Sahulat: a journal of interest free micro finance” twice a year. The purpose of the journal is mainly to promote research for conceptual refinement and to popularize the idea of interest-free micro financing.

Forum for Group Discussion on Economic Issues (FGDEI), formed by Sahulat Microfinance in association with Radiance Viewsweekly to deliberate upon issues relating to economic issues organized **10 extension lectures** by Scholars of national and international repute during the last year.

- **Interest Free Loans to Rickshaw pullers, Small Shop owners, Farmers, Unemployed youth.**
- **Financial Aid for setting up New Business Ventures and Sewing Machines for Widows.**

Partnerships

Sahulat supports following Microfinance Organizations:

- **Khidmat MACCS** in Andhra Pradesh
- **Sangamam Co-operative Credit Society** in Kerala, Tamilnadu and Pondicherry
- **Al-Khair Co-operative Credit Society Ltd.** in Bihar, UP, Jharkand & Delhi

responding to **EMERGENCIES**

In an instant, life can change for millions of families. Natural disasters can take homes and what little possessions they have. During humanitarian emergencies, responding immediately and effectively could mean saving many lives. During natural disasters and communal riots, there are critical shortages of food, medicine and shelter. As a result, many civilians, particularly women, children and the elderly suffer because they are among the most vulnerable members of society.

Society for Bright Future (SBF), a national level disaster relief organisation, was formed as part of Vision 2016 program. SBF specializes in Emergency Relief and Rehabilitation and has quickly responded to all natural and man-made disasters in recent past.

The Emergency and Relief program of SBF includes providing survival items like food, water, clothes, shelter and medical care during emergencies. Also involves training in preparing for and coping with disasters.

The Rehabilitation program includes the handicapped assistance program, reconstruction of residential and commercial properties of the affected population and employment assistance, etc.

Society for Bright Future aims at developing its organisational capacity to respond effectively to emergencies. We are establishing a disaster-preparedness strategy and an implementation plan nationally so that we can fast-track our emergency response capacity, and develop SBF as a leading humanitarian agency for disaster response.

Communal Violence and natural disasters such as earthquakes, floods and droughts have caused the death and displacement of millions of people. In these emergencies, displaced people are forced to flee their homes and are deprived of their rights to food, health and protection. We try to ensure that their basic needs are met, by providing food and materials as soon as possible, and by working with the international community to provide essential services.

Quick response to devastating Floods in Uttrakhand, Assam, UP and Kashmir

Kashmir Flood Relief Medicines, Food Items, Winter Clothes and Blankets worth Rs. 5 Million

Over 1000 Pucca Houses constructed for Flood and Riots Victims in Assam, Bihar & Uttar Pradesh

NATIONAL LEVEL VOLUNTEER CORE

In order to ensure that our network is ready for action at short notice, we are building a national level volunteer core of emergency response personnel. Comprehensive training programmes are conducted regularly across India to improve the technical ability of this volunteer core.

protecting CIVIL RIGHTS

A large number of under-trial people are waiting for justice in Indian prisons. Poor people are vulnerable to all kinds of exploitation including legal exploitation. Many people are in jails just because they can not afford a few hundred rupees for bail. Legal help is among the prime needs of many poor people in India.

Association for Protection of Civil Rights (APCR), a civil rights' group comprised of advocates, social activists and grassroots para-legal social workers dedicated to using the legal system to protect and advance the civil and human rights in India, was formed as a part of Vision 2016 Program to defend the rights of the underprivileged sections of the society and to provide legal aid assistance, protection and rehabilitation to the survivors of religious intolerance and all sorts of discrimination and oppression.

APCR is committed to the protection of society from violation of human rights, Illegal detentions, custodial deaths, fake encounters,

false cases on the behest of political exigencies, unprovoked firing on demonstrators, criminal negligence of officials and public servants at the time of natural and manmade calamities and consumer frauds by local manufacturers and service providers and Multinational Companies.

APCR conducts training workshops on criminal law and human rights issues, investigates in to cases of human rights' violations, undertakes cases of public interests with a view to bring about a comprehensive change in criminal justice system, addresses issues of prisoners rights, keeps a watch over law making process to make positive intervention, involves in awareness of general masses and initiates campaigns on various sociolegal issues.

The network of APCR is spread over the length and breadth of the country. APCR is also working as a support group for the organizations and movements committed for the promotion of Justice and Equity in India.

Legal Aid to the Victims falsely fabricated in terror related cases.

Over 1000 innocent youth (framed in fabricated case) released from Jail

Intervened successfully for getting pensions released for 1500 senior citizens.

- Filed litigations and pursuing Human rights violation cases in Trial/Supreme court;
- Established a national network of Para-Legal Workers and Activists;

Legal Guidance to over 2,000 people;

Over 50 Legal workshops to train the people on Human Rights issues

caring for **ORPHANS**

Orphaned children are amongst the most vulnerable in society. They are vulnerable in the sense that the father (and in some cases the mother also) have passed away or left them. They are often left in the care of elderly relatives who do not have the ability to support them and often consequently receive no education and are driven into work at a very early age missing out on a real childhood and education. This obviously affects them for the rest of their lives and they are not able to develop into valuable members of society.

With the loss of their parents and their first line of defense, orphans of disasters often witness horrible atrocities. As easy targets for abuse during their formative years, they are hardened by their daily experiences and are robbed of a childhood. Even orphans who are not touched by corruption and violence, are still deprived of education. Human Welfare Foundation (HWF) has reacted to this has developed a very successful orphan support scheme which is now helping thousands of needy children.

Millions of orphan children throughout the world are denied the most basic necessities that we take for granted every day. The smallest things can make a huge difference to a child's development and the opportunity for them to have the future they deserve. Through the Vision 2016 Sponsor an Orphan Programme, you could support a child for as little as 50 Rupees a day. We do not believe in providing a meal and walking away; your contribution will provide school fees, food, clothing and healthcare aimed at providing them with a secure and stable future.

We place orphan children in the care of host families who will nurture the child to fulfill their potential and support their development by giving them the extra confidence and motivation they need to fulfill their dreams.

Our scheme runs in northern and eastern states of India and we sponsor children of all faiths, gender, ages and abilities. Our local partners keep an eye on the progress of these children and make sure that they are getting the best possible care.

Over **8700**
Orphans supported

WHY SPONSOR AN ORPHAN CHILD?

Islam pays particular attention to the situation of orphans and as testimony to this, a number of verses in the Quran demand kindness on their behalf, promising the worst punishment for those who ill-treat them and equally promising the highest rewards for those who look after them. The Quran goes so far as to treat a person who oppresses an orphan as a non-believer, in the same way as he who denies the existence of God:

“See the one who denies the religion, then such is the man who repulses the orphan with harshness and does not help feed the poor...”

Prophet Muhammad (P.B.U.H) said,

“God, I firmly condemn he who abuses the rights of these two vulnerable groups: orphans and women...”

community **DEVELOPMENT**

Human Welfare Foundation fosters charitable giving to alleviate the immediate needs of poor communities and to establish long-term development projects that ensure individual and community growth.

No man can live alone. We always need our family, friends and the community around us, in good times and bad. Unfortunately, we often forget that community needs our help too.

Small acts of kindness can go a long way to bring a smile on another's face. It costs little, yet does a lot. That is the reason why Human Welfare Foundation, through Vision 2016 program, is engaged in helping the poor and destitute. HWF is one of the leading humanitarian set-ups of the country, which cater to various needs.

We have implemented a large number of projects aiming at community development and empowerment. Number of our beneficiaries are well above 8 million.

CONTINUING TO DEVELOP

The generosity and kindness of donors has allowed Human Welfare Foundation to help millions of people across India in last 8 years. Their sustained support will mean HWF can use all it has learnt to continue to assist all those in need around the world.

The 8 years until this point have seen Human Welfare Foundation constantly evolve and develop; coming years will be no different. The charity will work with its beneficiaries, its partners and all of its field offices to bring a positive change to the lives of those trapped in poverty.

Having grown from one small office in 2006 to a leading Indian Humanitarian Aid organization in 2015, the organisation aims to use its knowledge and experience to push forward the development agenda in the interest of serving humanity.

Human Welfare Foundation know that the poverty and suffering will not end tomorrow, but are certain that what we do today will bring closer that day when it does.

GET INVOLVED

The generosity and kindness of individuals, groups or organisations has allowed Human Welfare Foundation (HWF) to deliver life changing programmes in last 8 years. Thousands like you, who persevere day in and day out as volunteers and partners of this humane venture, form its backbone, putting in a lot of effort and time to turn this dream into reality.

We take this opportunity to acknowledge and appreciate the value of your treasured support. The poor who cannot afford a set of clothes, the countless starving sisters forced to sell their honour for a few crumbs, parents too indigent to pay for the legal fights

for their unjustly incarcerated children, and millions of kids so far denied a chance for education - all these look up to HWF with desperate hope. If we can leave aside a small portion of any extravagances on weddings, dinner parties, entertainments and the like, it will mean a lot for them: one meal for the hungry, a pair of clothes for the needy, a scholarship for a child.

The destitute need your support in cash and kind and you are capable enough to support the noble cause of catering their needs. We expect your helping hands ever in future so that the dark present of those people can be lightened in near future. It's only people like you who make us confident enough to take new initiatives.

SCHOLARSHIPS (UG/PG)

Help needy & meritorious students earn PG Degrees with only **Rs. 2000/- (\$40)** per month

EDUCATIONAL REHABILITATION OF VIOLENCE AFFECTED CHILDREN

Rs. 5,000 (\$95)/month can pay School fee, uniform, school Supplies, food, healthcare & other necessary living expenses of a child
